Nazionale raw prosciutto MONTI SIBILLINI with bone

Product code: **Art. 038** "MONTI AZZURRI" prosciutto from Marche region - with bone.
Legal definition 'raw seasoned prosciutto' per Article 10 et seq. of Ministerial Decree of 21
September 2005.

DESCRIPTION

Prosciutto with bone between 8.5 and 9.5 kg, covered with lard on the part without rind.
Specific size for an order can be agreed.

GENERAL CHARACTERISTICS

Cutting and shaping: from a leg of pork, the muscle with the femur, tibia and fibula bones. Rind removed in the anterior medial part of the thigh, with a typical "Marche" very wide cut from the articulation of the cuff to the base. Trimmed and rounded into the classic "pear" shape and the protrusion limited by the bone.

Appearance: typical for the product with no holes or gaps, no seepage, compact and well cleaned to ensure little waste and high yield. The slice is homogeneous, compact and does not stick when slicing.

Raw material: for typical production is the leg of a heavy, Italian, adult pig, except for boars and sows with the birth farm and slaughterhouse label clearly legible on the back. It has white external fat and a cover of limited thickness.

ORGANOLEPTIC CHARACTERISTICS

Taste and Smell: lightly spiced on the palate, with a delicate aromatic scent.

Colour: bright to deep red.

OTHER CHARACTERISTICS

Ageing: minimum 13 months; specific ageing for an order can be agreed.

Ingredients: pork leg, salt, seasoning, sugar, spices, aromatic herbs. There are no allergenic substances in accordance with EC Dir 2003/89 and the lard used for covering the prosciutto is gluten-free.

Processing: traditional methods with the help of highly advanced technology in Marche Region which has an ideal climate for such products. No methods involve the use of additives and/or fast drying with hot air and/or ionizing treatment.

Microbiological and chemical requirements: compliant with current regulations on food hygiene. Analysis results of the samples as per the sampling plan in the Control Manual are available at our registered office. Sampling entrusted to an accredited external laboratory.

Traceability: in compliance with EC Regulation No 178/2002. The production batch and the supplier code are noted on the commercial document.

Storage: remove from the carton, preferably keep hanging in a cool, dry place and away from light at 14° to 18° C with a relative humidity of 50% to 60%. Under these conditions the product maintains its organoleptic characteristics for 180 days from packaging.

Packaging:

Primary Packaging	Bulk
Secondary Packaging	Food carton
Pieces per carton	2
Carton size (cm)	59x39x18 (WxDxH)
Pallets (Epal)	80x120x110 (WxDxH)
Packages per pallet	20
Packages per layer	4
Max. layers per pallet	5

Transport: by carrier, in compliance with the specific needs of product protection.

Control: Quality management control and food safety manual in compliance with
UNI EN ISO 22000: 2005.
